Commerce

Notes added to Commerce Program information:

- Tuition fees for students enrolling in the Commerce programs from 2001 onwards will be higher than for other Arts and Science programs.
- MAT 133Y1/(123HI, 124HI) are courses which satisfy the minimum Program requirements. Students who are likely to enrol in 200+ series MAT courses are advised to take MAT 137Y1 instead, noting that MAT 137Y1 is a theoretically oriented course for Specialists in Mathematics and mathematically based disciplines such as Actuarial Science.
- Enrolment in the Commerce and Finance Program is limited. The majority of spaces each year will be reserved for students admitted to first-year studies in Commerce. A limited number of places will be available for other Arts and Science students not admitted to first year Commerce; these students normally apply for admission in April of their first year.
- First Year Commerce:

These students will be guaranteed a space in the Program after first year provided they complete MGT 120HI, ECO 100Y1 and MAT 133Y1 or equivalent on their first attempt, and a total of at least 4.0 credits. A student must obtain at least a D- in MAT 133Y1 (or equivalent). At least a C (63%) is required in both MGT 120HI and ECO 100Y1. A student's grade point average will not be considered, although students must maintain at least a 2.00 (a C average).

All other Students must meet the following admission requirements:

- Complete MGT 120HI and ECO 100Y1, each with a mark of at least 63%
- Complete one of MAT 133Y1/135Y1/136Y1/137Y1/(123H, 124H)/(125H,

126H), with a mark of at least 50%

- Complete a minimum of 4.0 credits
- Obtain an average on first attempt in MGT 120HI, ECO 100Y1 and MAT 133Y1 (or equivalent) of at least B-, whether the courses were taken at U of T or awarded as transfer credits
- Obtain a CGPA to be determined each year

This interdisciplinary course critically examines the socio-political cultural context that has produced a new queer visibility. The course assesses many of the post-Stonewall changes in the North American public sphere and the interrelationship between the new queer visibility and the North American public sphere.

Prerequisite: UNI255HI and UNI355HI or permission of the instructor

UPDATE TO RULES AND REGULATIONS

This change replaces the section on "Courses of Other Campuses" under "Taking Courses Outside the Faculty".

Courses at UTSC and UTM

Students registered on the St. George campus of the Faculty of Arts and Science may enrol in most courses offered by UTM and UTSC, provided that they meet the enrolment controls and prerequisites established by those divisions. These courses count towards the 20 credits required for a St. George degree and are included in the CGPA. These courses may also count towards St. George program requirements; students should check with their program office before enrolling.

However, there are some courses offered by UTM and UTSC that may not be counted towards St. George degree credit or the CGPA. A full list of these courses is posted on the Arts and Science web site at www.artsandscience.utoronto.ca/ofr/calendar/utmutsc.htm.

A student who wishes to enrol in one of these courses should petition through his/her College Registrar's office. If the petition is granted the student will be permitted to enrol in the course but it will be marked as "EXTRA" on the transcript and will not be counted for degree purposes nor included in the CGPA calculation.
